

# PETRO CLASSROOM

## Class A/B & C Operator Certification Training

### Compliance Training

Petro Classroom offers state-approved Class A/B and C Operator Certification Training. Our Class A/B Training is available in a classroom and online format and our Class C Operator training is available online. Petro Classroom's compliance training is affordable and convenient and not only meets, but exceeds the training requirements and guidelines established by the EPA. Stay in compliance and avoid penalties by getting your Class A, B, and C Operators trained and certified today!

#### Classroom Training

Our classroom training is led by experienced instructors with first-hand experience in the petroleum industry. A/B Operators will experience an engaging format tailored for learners who prefer a classroom setting and the opportunity to interact with the instructors and other Class A/B Operators. If your organization has the need to train 20 or more Class A/B Operators in your area, give us a call.

#### Online Training

Petro Classroom's online training is for Class A/B and C Operators who prefer a stress-free, self-paced environment with **NO FINAL EXAM**. Our online courses are designed with short quizzes after each subject area to increase knowledge retention. If you fail a quiz, you simply review the content and take the quiz again. Our no-fail certification courses can be taken 24-7 from anywhere with an internet connection.

#### International Code Council (ICC) A/B Prep Course

Petro Classroom offers ICC preparation courses for Class A/B Operators who are required to take certification exams through the International Code Council. Our preparation courses include everything you need to know to pass the ICC exams with confidence.

**If you are the State Implementing Agency and would like us to manage your UST Operator Certification Training Program, give us a call.**
